

On April 14, we will take our movement to STOP wanton police murder to a whole new level. NO SCHOOL! NO WORK! STOP BUSINESS AS USUAL! #ShutDownA14

On this day, thousands of students must walk out of school, take over buildings and go on strike at colleges and high schools nationwide. People must gather and march in cities all across the U.S. The normal routine of this society includes wanton police murder of Black and Brown people. Everyone must disrupt that normal routine.

Our demands are clear:

- * The murder of Black and Brown people by the police MUST STOP.
- * Justice for all the victims of brutal, murdering police.
- * Indict, convict and send killer cops to jail—the whole damn system is guilty as hell.
- * Stop the repression targeting the protests—Drop all the charges against all those arrested.

The business as usual of police killing our people and never being punished is a concentration of an overall program of mass incarceration and all its consequences that has tens of millions of people living their lives caught up in the criminal “injustice” system of this country. A hidden part of this program is the demonization, criminalization, deportation, and murder of immigrants. This must stop. Will our righteous protest and the people’s determination to STOP this be suppressed with threats and empty promises? Will that business as usual continue? Or will we retake the initiative to lead, YES, millions back out into the streets, not stopping until the police murder of Black and Latino people stops? This is the challenge we face. All of us must act on April 14 to loudly declare we will not go back, stop the police murder of our people.
