

Call from Stop Mass Incarceration Network

APRIL 14—STOP BUSINESS AS USUAL! #ShutDownA14

WE WILL NOT GO BACK! NO SCHOOL! NO WORK!

SAY NO MORE TO THE SYSTEM GIVING A GREEN LIGHT TO KILLER COPS!

The people have stood up. Beginning in August with the youth in the streets of Ferguson and continuing through the end of the year, all across the country, thousands and thousands of people took to the streets to stop the murder of Black and Brown people at the hands of the police. People blocked highways and bridges, marched through shopping malls stopping commerce as usual, did die-ins everywhere, walked out from school, and shook this country to its core, opening the eyes of millions around the world to the brutal reality that time and time again police kill Black, Brown, and other people of color with impunity. For many people, this was the first time they had ever marched and demonstrated. This outpouring was long past due and was a real advance in the people's struggle to stop this horror.

Now we are at a crossroads: will the authorities succeed in suppressing our resistance, or will we move forward on the offensive and bring even more massive waves of struggle to STOP the murder of Black, Brown, and all people by the police?

WE WILL NOT GO BACK! On April 14, we will take our movement to STOP wanton police murder to a whole new level. **NO SCHOOL! NO WORK! STOP BUSINESS AS USUAL!**

On this day, thousands of students must walk out of school, take over buildings and go on strike at colleges and high schools nationwide. People must gather and march in cities all across the U.S. The normal routine of this society includes wanton police murder of Black and Brown people. Everyone must disrupt that normal routine.

Our demands are clear:

- * The murder of Black and Brown people by the police **MUST STOP**.
- * Justice for all the victims of brutal, murdering police.
- * Indict, convict and send killer cops to jail—the whole damn system is guilty as hell.
- * Stop the repression targeting the protests—Drop all the charges against all those arrested.

The business as usual of police killing our people and never being punished is a concentration of an overall program of mass incarceration and all its consequences that has tens of millions of
