

Which Side Are You On?

A Message from Carl Dix:

Bring 100 Families of those who were murdered by police to New York City for #RiseUpOctober to Stop Police Terror

A [Call for Rise Up October to Stop Police Terror](#) has gone out – and has been taken up by people of all walks of life – to be in New York October 22-24. Families of those whose whole lives have been stolen by the police have stepped forward to join this Call. Their powerful stories of what the system has done to them, and their cries for justice – not just in their cases but for what is happening all over this country – need to be heard right in the heart of New York City.

We want to make it possible for no less than 100 families to travel to New York City to be able to put this before the country and the world – to stand with many thousands of others to demand that people take a stand — Which Side Are You On? Do you stand with the people who are being victimized by police terror and murder and who refuse to live in a society like this, or do you stand with those who condone or justify these crimes? These families have made it clear that they want #RiseUpOctober to be very powerful and that they need to be there.

There is a need to bring many thousands to New York City. Many need to be organizing buses and other ways that people from all over the country can get there. This will require a big movement and major fundraising everywhere. As a key part of that, we want to make an appeal for this particular project:

100 Families of Lives Stolen by the Police to New York City Oct 22-24

We are calling on every individual, organization or group of individuals to answer this Call and make it possible for all of these families to be in New York City on October 22-24. The travel expenses will vary for different families depending on how far they have to travel and how many of them want to come. We have set up a [special travel fund](#) for this purpose.

Will you show which side you're on by [donating NOW?](#)

In solidarity,

Carl Dix
